Competing interests: The author declares no competing interests.

Data and code availability: Simulation scripts and the archive-query script are supplied as supplementary material. The speaker-pool figures reported in the paper are reproduced by `speaker-pool-audit.py`, which queries the Swiss Federal Assembly's public OData service and needs no key or registration.

Declaration of generative AI: Declared in the manuscript itself, in a named section before the reference list, following the journal's prescribed title and template. Not in the cover letter, which is where the previous version of this page placed it.
